

UCHIDA & SAMEJIMA
LAW FIRM

Uchida & Samejima Law Firm is one of the largest IP/IT boutique law firms in Japan, home to attorneys who used to be with business in larger companies such as IBM, Toshiba and Mitsubishi. We can cover all the technological fields, from bio-science to electronics and IT – with particular strength within the field of IT, including setting up subsidiaries in Japan for IT services.

Industrial Property - We have a particular strength in patents. Litigation, licensing and business alliance are our main domains.

We propose a closer collaboration between your company and our law firm –

We can help your company to expand their business in Japan, particularly in the field of technology, because USLF is:

A group of attorneys with technological backgrounds varying from life science to electronics, including chemistry and mechanics;

A group of attorneys doubly qualified as Benrishi (patent attorney) and Bengoshi (attorney at law);

Highly qualified regarding patent infringement law suits.

Deep experience in IT legal matters, such as internet/ soft ware business and system constructions.
